

Advanced Organic Chemistry, Carey-Sundberg, KO8001, 2017, 15hp

The lectures are in lecture hall A501 from 9.30-12.30

20 January Alkylation of enolates Pher

27 January Reaction of C-nucleophiles with C=O compounds JEB

10 February FGI Pher

24 February Electrophilic additions JEB

1 March Reductions Pher

10 March Rearrangements + cykloadditions JEB

17 March Orgmet grp 1-2 Pher

24 March Transition metals JEB

7 April C-C bonds via B, Si, Sn Pher

21 April Carbocations, carbenes, radikals JEB

5 May Aromatic subst. Pher

12 May Oxidation JEB

19 May Multistep syntheses Pher
